Library Information

New Staff

Joanne MacKey started work as a Library Assistant at the beginning of November. Joanne works mornings and will be helping us to keep up with all our shelving and photocopying tasks.

ADITUS / NATIONAL CORE CONTENT

The North-West access point for the National Core Content is through ADITUS at www.aditus.nhs.uk. To access Aditus or the National Core Content, individual Athens usernames and passwords are required. To register click on the Register button on the left hand side of the Aditus page and this will take you through the registration process. If you are registering through an NHSnet connected computer (any on the hospital network), registration is instantaneous. If registering through any other network there will be a delay whilst your details are checked.

Each Athens password is connected not only to the National Core Content but also to the North West Collection of resources and also the individual Trust's collection of resources.

For further information contact the Athens administrator for Salford Royal Hospitals NHS Trust, Valerie Haigh, on ext 65753

Tuition

Do you need help to access Athens passwords? Do you find Aditus baffling or wonder what the National electronic Library for Health is all about?

Don't worry tuition is available 12-6 Monday to Friday. To book a tuition session ring ext 65405 or ask at the enquiry counter.
