## Library Information

### Library Refurbishment Update

The hospital network computer links were upgraded in May, unfortunately we are still waiting for the wireless network to be installed. We will be organising an Open Day as soon as the system is installed to show off, and explain, all our changes and additions.

### ADITUS / NATIONAL CORE CONTENT

The North-West access point for the National Core Content is through ADITUS at [www.aditus.nhs.uk](http://www.aditus.nhs.uk). To access Aditus or the National Core Content, individual Athens usernames and passwords are required. To register click on the Register button on the left hand side of the Aditus page and this will take you through the registration process. If you are registering through an NHSnet connected computer (any on the hospital network), registration is instantaneous. If registering through any other network there will be a delay whilst your details are checked.

Each Athens password is connected not only to the National Core Content but also to the North West Collection of resources and also the individual Trust's collection of resources.

For further information contact the Athens administrator for Salford Royal Hospitals NHS Trust, Valerie Haigh, on ext 65753

### Article Requests and Inter Library Loans Service

Please Note from 11<sup>th</sup> August to 22<sup>nd</sup> August only URGENT Requests will be processed.
